The “KEEPEEK” add-in will not collect any personal information, and it will also not forward any information.

Cookies and Other Tracking Technologies

KEEPEEK SAS Office add-in uses tracking technologies to remember whether users have logged in while on our add-in. This way, system users avoid logging in more than once, and thereby save time. Users can disable this functionality by unchecking the “remember me” checkbox on the login screen (unchecked by default). If users opt to uncheck the “remember me” checkbox, they will still be able to use our add-in.
